

DT-205 – electronic theodolite for the construction business

User friendly

- Telescope with 30x enlargement and approved extraordinary optics
- Choose between laser plummet and optical plummet for an exact set-up
- Telescope turns for 360°
- Tubular and circular bubble as well for quick pre-adjustments
- Big and easy to read figures in the display
- Switches easily between gon and degrees

Complete equipment

The DT-205 comes with a large set of accessories. You receive a operation manual with integrated certificate of quality as well as a plumb bob and adjusting tools. The delivery is carried out in a durable hard-shell carrying case.

Technical data	DT-205
Enlargement	30x
Objective's aperture	45 mm
Shortest focus	1,5 m
Addition constant	0
Multiplication constant	100
Reading horizontal/vertical	0,001 gon / 1"
Figures horizontal	0-400 gon / 0-360°
Figures vertical	0-100 gon / 0-90°
Display horizontal/vertical	e.g. 90° 00' 00"
Accuracy horiz./vert.	5"
Enlargement optical plummet	3x
Horizontal bubble	30" / 2 mm
Weight	5200 g
Model	550 504
Scope of delivery: Theodolite DT-205, plumb bob, adjusting tools, operation manual, carrying case	

Applications of the DT-205

- Any application of a level
- Marking on construction sites
- Vertical adjustment of concrete columns
- Plumbing down elevated points
- Definition of slopes and inclinations on street work sites
